Kinsmen Held Banquet And Dance Celebrate Their Golden Anniversary

On Monday night, February 23, the Minden Kinsmen Club held a "Ladies Night" at the Wagon Wheel Motel, to celebrate Kinsmen's Golden Anniversary.

Invited by the Kinsmen for this banquet and dance were the members of the Minden Rotary Club and their wives.

Head table guests were President Les Hogg and his wife, Governor Frank Guy and wife, Mr. Arrie Oberholzer and his wife, Dolla, Deputy Governor of the World Council of Young Men's

Service Clubs, MPP William Scott and his wife, President of the Rotary Club, Vinton Loucks and his wife, President of the Kinsmen's Club Opal Crowe and her husband Don.

Mr. Arrie Oberholzer is from Lichtenburg, South Africa and is on tour, visiting the many clubs associated with the World Council. Mr. Oberholzer was a pleasant surprise guest for the Kinsmen and gave a very interesting talk on the World Council and its participation with the many

organizations such as Kinsmen. Past President Bill Payne thanked Mr. Oberholzer and presented him with gifts of the Haliburton Highland tartan.

After the banquet and speeches the party adjourned to the recreation room, for dancing.

MARATHON DRAW WINNERS

At the Kinsmen banquet on Monday evening, the clubs monthly Marathon draw was made.

Drawing the tickets were Kinsmen's guests Mr. and Mrs. Arrie Oberholzer of South Africa.

\$100.00 winner, Milt Battersby, Lindsay; \$50.00 winners were Shirley Johnston, and Maxine Stephen both of Minden.

DINNER MEETING HELD AT HYLAND CREST

A dinner meeting of the Hyland Crest Auxiliary in the form of a Pot Luck supper, was held at the Home Monday of this week.

There were 19 members present. The regular reports were given — the Tuck shop is running along smoothly and there is a very active group of Craft people working with the residents.

Mr. Seeley announced his resignation and expressed his regrets at leaving. His parting gift to the members of the Auxiliary were pictures that he took during the dinner on his Polaroid camera. He was duly thanked for his services to the Residents by the President, Mrs. Doreen Stinson.

The Tea Parties are all arranged until next May and many different types of entertainment are being arranged.

A St. Patrick's Fun Night for the Residents and the Public will take place on Monday, March 16th., at 8 p.m. Admission is 50c. Plan to attend, as the residents are always happy to see old friends.

The next regular meeting will be held on March 23.

MINDEN WOMAN DIES, FOUR INJURED IN ACCIDENT ON HIGHWAY 121, SUNDAY

Mrs. Jean Gartshore, 46, of Minden was fatally injured Sunday when the vehicle in which she was a passenger and driven by David Teatro, 20, also of Minden, came into collision with a vehicle driven by Cyril King, 67, of Ajax, on Highway 121, approximately 7½ miles south of here, at 6:15 p.m. Sunday, February 22nd.

Police reported that Mrs. Gartshore was pronounced dead on arrival at Ross Memorial Hospital.

Also injured in the collision was Arthur Bradley, listed in fair condition in Ross Memorial Hospital, a passenger in the King vehicle. David Teatro, is listed in satisfactory condition, his wife Gail 19, is still listed in critical condition, and their 18 month old daughter, Tracy has been released from hospital.

Total damage in the mishap was estimated at \$3,000.

An investigation is being carried out by Corporal D. R. Stevens and constable Larry Scott, both of the Ontario Provincial Police detachment here.

PAUL PRENTICE ESTABLISHES LAND SPEED RECORD

Minden's fame in snowmobile racing, Paul Prentice established a new Ontario Land Speed Record of 76.4 M.P.H., over this past weekend in Owen Sound.

This was a sanctioned snowmobile race — the old record was 75.9 M.P.H.

In the Owen Sound meet Paul won himself 11 trophies and some \$400.00 in cash prizes. His next race will be held in North Bay, this coming weekend, with one more circuit race to be held in Orillia.

Paul has been invited to race in the World Championships held in Rhineland Wisc., USA on March 23rd. The racers involved in this Championship meet are the best in the world, and are there by invitation only.

If he competes in this World Classic meet, Minden will be behind him on every bend — best of Luck to you Paul "Mr. Speed" Prentice.

DEPARTMENT OF LANDS AND FORESTS REPORT FISHING GOOD HERE IN HALIBURTON COUNTY

Fish have been biting well for the ice fishermen in Haliburton County, especially in the northern portion, and in the north part of Peterborough County, reports the Department of Lands and Forests.

All of the county of Haliburton is open for ice fishing except the townships of Clyde and Brunton and the area of Peterborough County north of Highway 36, not including Stoney Lake.

Fisheries technician Robert Dyke said that the fishermen are mainly after lake, brook, speckled and rainbow trout, and have been particularly successful with speckled trout. He said some whitefish, herring and a few pickerel are obtained.

Officer Dyke said ice conditions are generally good for ice fishing in the authorized areas, although he warned fishermen to beware of treacherous areas in some places where currents existed. He said the ice is thin in one part of Crystal Lake, near Kinmount.

As of January about 135 fish huts dotted the ice surfaces of lakes in Haliburton County and North Peterborough. Anglers are permitted two fishing holes, close enough together to tend them, and may have a legal limit of four hooks on each line. Each of the four hooks, if part of an artificial lure, can consist of a gang (a gang, means a group of hooks

manufactured to act as a single hook) of up to three hooks. The limit on baited hooks is four hooks, whether they be clustered in a "gang", hung on spreaders or strung along the length of a line.

Fish and Wildlife Supervisor for this district, Percy Swanson said little trouble has been experienced with the ice fishermen. He said this year the department has experienced problems on the lakes with people chasing deer on snowmobiles.

Winter fishing is an increasingly popular sport, but it takes considerably longer for the angler to catch a fish in winter. Winter creels census of lake trout lakes have revealed that approximately eleven hours are required to catch one lake trout. The period of time to catch a fish in summer is much less, approximately three to four hours.

Ice huts must be removed from the lakes by March 31, noted the department.

BIRTH

NESBITT Leroy and Jeanette (nee Trudeau) are happy to announce the arrival of their son, William Scott, 7 lbs, on Thursday, February 12, 1970, at Minden Red Cross Hospital. First grandchild for Mr. and Mrs. Sinclair Nesbitt and fifth for Mr. and Mrs. Mac Trudeau of Haliburton.

THURSDAY SMILE

Relatives looking for handouts seldom stay long. It's usually just a matter of touch and go.

Highway 35

200' on Highway 35 approximately 13 miles North of Minden, overlooking Hall's Lake. The lot is level, nicely treed with approximately 150' in depth.

Price \$5500.00

Gull River Lots

Excellent cottage lots on this popular river, with access to Gull Lake offering miles of boating. Level lots, treed with 100' frontage. Low down payments.

Price \$2500.00

HERE AND THERE

with Fenwick Finch

First of all I had a telephone call from Mrs. Kay Lunham and she made a suggestion which I think has a great deal of merit. As I said last week, with the resignation of Mrs. Grace McKay from

the local Red Cross Hospital the community had lost a dedicated person and Mrs. Lunham's suggestion of setting up a scholarship in Mrs. McKay's name is well worth consideration. Possibly the Rotary or Kinsmen would be interested — it is well worth some thought.

In the mail I received a nice letter and card from George Brennan of Haliburton, in keeping with the column in which I mentioned some local professional entertainers George enclosed a folder of his own showing him in chinese costume as a conjurer — he was the first to introduce the famous trick of placing ten razor blades on his tongue, drinking some water, placing some thread in his mouth and after another drink, brought out the thread with the blades on it at regular intervals. George's motto in those days was, "I wouldn't deceive you for the world."

So, you see, you never know where talented people are.

A visit from John Klockhoff of Kinmount netted me another piece of 'graffiti' John didn't tell me where it came from but here it is. "Ye who came to nature's call, Why do you write upon the Wall? Could it be your feeble wit, Only shines where others sit?"

While John was here we discussed our mutual friends of Flying Saucer fame — Gene Duplantier. Gene was scheduled for an appearance on television with Norm Perry but somehow or other the show didn't appear — maybe someone can tell us what happened.

Still all kinds of interference on my TV from the OPP transmissions. They pretty well stamp out Channel 3 — however, I think I've solved the problem — I've quit watching that channel — let the powers that be on the Barrie station worry about the interference — they're the ones who are losing the following.

Was quite suprised recently to see Ernie Taylor giving his seal of approval to the snowmobile modifications. For about four hundred bucks you can have three wheels put on you snowmobile and run it on the highways during the summer at speeds up to 70 M.P.H. That's all we need, you're hardly safe on the highways in a car but this way they'll be able to gather in the snowmobilers that were lucky enough to get through the winter without serious injury or even being killed.

Tom Farmer has just informed me that there is another meeting of the newly formed "writer's group" on Monday March 8th at the Haliburton Guild of Fine Arts — 8 p.m.

If you are interested in writing this is the place to go. Writing is a lonsome business and your imagination will be greatly stimulated by meeting with others who are interested in the craft.

That's about it for this week. My thanks to Sean Eyre of CHEX for his kind words and the various uses he makes of the column. I have never been fortunate enough to hear any of these but the number of calls I get from other listeners shows his programme is extremely popular.

Fenwick

LETTERS TO THE EDITOR

73 Saskatoon Drive,
Weston, Ont.
February 20, 1970

Dear Fenwick Finch:

I read your column every week, following you through your illness and recovery, noting with interest that your writing has taken on a fresher, deeper and more "individualized" approach. I've seen it happen time and time again: a person becomes ill passing through some crisis (physical, mental or spiritual) and in spite of, or perhaps even because of it, their lives become more meaningful. Anyway, this is my honest opinion of your column: it was interesting before your illness, but now its not only more interesting, it also has depth and quality, highlighted by a humour which wasn't there before. (Or maybe I just missed the extra-good weeks!) Hope you continue in good health.

I must have read your column about "Washroom Writing" a dozen times, and each time I laughed with equal gusto. I wish I could remember some of the wittier and (printable) ones I've seen — I can only think of the one posted on the door (at eye level when you're sitting down) which says "Smile — You're on Candid Camera."

Though I suppose "Steam Baths" and "Washrooms" are not closely related, I had an experience to-day which I'll add to this letter. I've laughed so hard my sides are sore, and I find it almost impossible to tell anyone without bursting afresh into great gales of laughter, making my story too garbled for anyone to understand, so I'll write it to you.

I belong to this marvelous Health Club you see, complete with saunas, pool, exercise rooms etc. etc. Males and females can swim to-gether, but the other facilities are separate. Well, I was headed for the Women's Steam Bath, ready to fling open the door and rip off my bathing suit, when I happened to glance through the window and saw this man sitting on the third bench

up. I was temporarily stunned, but realizing I must keep a "cool head" in such an emergency I ran quickly to the owner and told him he'd better go quickly and get that poor guy into his own steam bath before some naked unsuspecting women went bursting in.

Imagine my embarrassment! I trotted along behind the owner — he flung open the door to warn the man to get out — that he was in the wrong section — and who do you suppose was sitting on the bench? Not a man

after all — but a flat-chested woman with a crew cut! She screamed.

We will draw a veil of charity over his incident — sufficeth to say that the owner wants to enroll me in his competitor's Health Club — says he will pay all expenses and refund my money.

As for the lady who looks like a man, she was ready to kill us both! Had she been a little nicer about it, I would have given her some advice: "Better spend more time on the Bust Developing Machine." !!

Sincerely,
June Haskill

A LITTLE ON KIN

After enjoying myself Monday night in the company of Kinsmen I thought it would be an idea to bring everyone up to date on what is happening in Kin this year.

Fifty years — this is the Golden Anniversary of the Association of Kinsmen Clubs. Monday night was this Clubs celebration. It all started in the City of Hamilton, Ontario on February 20, 1920 and the Association came about through an urgent desire of a young man, just returned from the trenches of the First World War, for the friendship of his fellowmen.

Harold A. Rogers, in his early twenties, was encouraged by his father, an eminent Rotarian, to get together a few young men of his own age and as a result a small group gathered for a dinner meeting in a cafe.

That became the first club in the organization — the Kinsmen Club of Hamilton.

From this group of a dozen earnest young men, determined to perpetuate in peacetime the idea of Service to Canada so recently exemplified by young Canadians during the war years, has grown the Association of Kinsmen Clubs, with its present 300 clubs and 10,000 members.

From the early days to the present, the Kinsmen Club has observed the Kinsmen Association's national motto: Serving the Community's Greatest Need.

The Minden Club has lived up to this Motto, by sponsoring their support to many charitable causes in this community. Their latest effort has been their pledge of \$10,000 towards a new Community Centre. Also their kind donation of \$200.00 to the Minor Hockey. Another one of their projects can be seen beside the present arena, the Kinsmen play ground, this project has been a good one, for it has supplied the youngsters of the town with many enjoyable hours of recreation.

The Kinsmen Club is an all-Canadian Club, a decision that it should be National and not International was thrashed out in a momentous Convention in Winnipeg in 1926. The age limit was also set — 21 to 40 years, for it was to be a young men's club. Older Kinsmen still associate with the Kinsmen Club through the creation of K-40 clubs.

The Association of Kinsmen Clubs has an international outlook however, through membership in the World Council of Young Men's Service Clubs, and through membership in this body associate with other young men's clubs throughout the world.

A Kinsmen Club consists of a local group of young business and professional men, whose active members are between the ages of 21 and 40. They give leadership for the betterment of their communities and many forms of worthwhile service.

We would like to congratulate the Minden Club, and the success of Kinsmen on their Golden Anniversary — and wish them the best of luck over the next 50 years.

DR. FITCH IN ACCIDENT AFTER SPEAKING ENGAGEMENT

Dr. William Fitch, minister of Knox Presbyterian Church, and president of the Evangelical Fellowship of Canada had completed his speaking engagement to 120 persons who attended a local E.F.C. dinner, Tuesday evening, February 10th in the Legion Hall. The interest and appreciation of his talk was indicated by the many questions which were asked from the floor. Dr. Fitch's answers were able to inform and clarify his listeners about the work of the Evangelical Fellowship of Canada to the great satisfaction of those present.

Members of the EFC planning committee, as well as Dr. Fitch were delighted with the evening's fellowship and inspiration, and the promise of a successful EFC chapter in Haliburton County.

Unfortunately the next day on his return to Toronto for a 1 p.m. funeral, Dr. Fitch met with an accident at Mertle which demolished his car and sent him to the hospital in Port Perry. Due to the impaired visibility caused by last Wednesday's snow blizzard, and the sifting of an on-coming truck a line of south bound automobiles smashed into it and one another. Haliburton friends will be glad to know however that Dr. Fitch suffered no injuries from the crash other than a very bad shaking up.

MINDEN OPP ARREST FOUR RECOVER STOLEN GOODS

The Minden detachment of the Ontario Provincial Police report they have arrested four people in connection with the theft of a cash register containing an undisclosed amount of money from the Haliburton high school, reportedly stolen Tuesday, February 10th.

Arrested are Rodney McKibbin 16, Paul Moss 16, Michael Barrett 18 and a juvenile, all of Toronto.

Police report Provincial Constables D. Potter and D. Heath, both of the Minden detachment, pursued a stolen car into Haliburton at approximately 3:00 a.m. last Tuesday, where the four boys were taken into custody.

Recovered along with the cash register was approximately \$1,800 worth of tape recorders, typewriters, and projectors, allegedly stolen from schools in the Barrie and Orillia area.

Police report the four also face charges laid by police of Metropolitan Toronto, Orillia, Markham and the Ontario Provincial Police detachment in Barrie.

"The Only Deals We Miss Are The
Ones We Don't Know About"

TEN COMMANDMENTS OF SNOWMOBILE SAFETY

- 1 Know your machine, its limitations and its handbook.
- 2 Never brake your machine with your foot.
- 3 Jumping obstacles is dangerous.
- 4 Do not attempt a wilderness trip until you are a capable driver with experience in making minor repairs.
- 5 Check ice thickness and beware of deep slush.
- 6 A child should not run a machine without supervision.
- 7 Carry a new spark plug, extra fuel, drive belt, rope and necessary spare parts.
- 8 On safari, carry snowshoes for each person, first-aid kit, axe, topographical map, matches, staple rations and a tarp.
- 9 Wear warm clothing, face mask, and goggles.
- 10 On safari, never travel alone; use the "Buddy System".

"And finally, mind your winter outdoor manners. Don't cut down or remove branches from living trees on lake shores. Leave nothing on the ice when you are finished. Obtain permission before snowmobiling over private property, and take care not to run over small trees. Resist the urge to follow game tracks on a snowmobile; animals such as deer have no energy to spare for unnecessary running in the hard winter months".

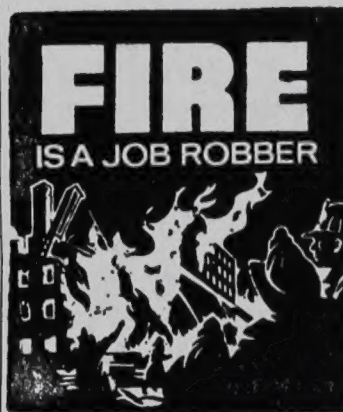

This has been an excerpt from "The Ontario Outdoorsman's Manual", available from the Department of Lands and Forests at a cost of 25c per copy. This 72 page booklet discusses all phases of outdoor use including watercraft, outfitting, camp cooking, winter travel, hunting safety, survival, and several other items.

SNOW AND ICE CONDITIONS

The Department of Lands and Forests have reported the following conditions existing in this County.

Minden 23.6 inches on ground, 12 inches on roof tops; 12-20 inches slush covered on lakes.

Haliburton 24.4 inches on ground, 16 inches on roof tops; 16-24 inches slush covered on lakes.

MINDEN MINOR HOCKEY NEWS

This column received some information from Kinmount this week, it goes as follows: Series between Kinmount and Minden Bantams, Whitneys predictions of 2 straight games didn't come true. Kinmount did win one game by a score of 4 to 1, goals for Kinmount were scored by Robert Hancock, Larry Silvers, Michael Popert, Brent Handley.

The series between Minden Pee Wees and Kinmount was won by Kinmount in 3 straight. Scores were 5 - 3, 4 - 1, 6 - 2. Goal scorers for Kinmount were, Stephen Austin with 11 goals, Danny Burns with 3, Terry Spencer scored a single. Kinmount was eliminated by Oakwood, by scores of 8 - 0, 4 - 1. The lone goal was scored by Stephen Austin.

The information above was submitted by Grace Simmons, an ardent hockey fan in Kinmount, she asks us to print the Kinmount results. Send them in Grace, we will print them.

.....

The Minden scene this week, is somewhat cloudy. The Bantams were eliminated by Sunderland by scores of 7 - 3 and 6 - 3. Both of these games were played in Sunderland. In the Thursday night loss Kirk Hewitt, Bev. Hicks and David Hicks scored for Minden, with John Welch and Pete Burk picking up assists. Saturdays loss Bev. Hicks scored twice and Wayne Harrison scored the other tally.

This team was expected to beat Sunderland, and according to Coach Gene Whitney, they didn't have a winning attitude, therefore lost the series. This could very well be a good reason for Minden suffering so many defeats this year — a team must feel like winning, in order to win — confidence plays a big part in anyone's success.

.....

The Mighty Minden Mites suffered their first loss of the season in Kawartha League play, on Saturday afternoon in Fenelon Falls, by a score of 1 to 0. This semi final series is now tied at one game each, with the third and deciding game to be played here this Friday night, February 27th., at 7 p.m.

The first game was played last Friday night here, in which the Mites took 3 to 0, on goals by Corey Walker, Paul McKenzie and Cory Coneybeare.

In the game on Saturday, the Minden club out-played Fenelon throughout the entire game, but were unable to score. Fenelon got a break-away in the last five minutes of play and scored.

.....

Congratulations to the Novice 'B' team, who won the consolation trophy in a tournament in Kinmount on Saturday, February 21st.

There were four teams entered in play, Kinmount, Ops, Minden and Bobcaygeon. This series featured an unusual feature, when Minden and Bobcaygeon ended up after overtime still tied at 2 - 2. They broke the tie by staging a 'shoot in'. Bobcaygeon won this 'shoot in' leaving Minden winners of the consolation trophy.

Minden won their first game by defeating Kinmount 2 to 0. Then went on to tie Bobcaygeon 2 - 2, with the 'shoot in' deciding the game.

**GREEN THUMB RESEARCH DEVOTED
TO BETTER TURF FOR ALL USES**

To many people turf is something to walk on or around. To others it means a smooth putting green or a patch of lawn. But to the Botany and Horticultural Science Departments, University of Guelph, turf is an important subject for research.

Given the use of 10 acres at the Horticultural Research station, Preston, for turf and grass research two years ago, the two departments have embarked on a number of important and far-reaching projects.

Dr. C. M. Switzer, chairman of the Botany Department, is conducting long-range herbicide tests in an attempt to control unwanted vegetation in turf. Often this involves trying to eliminate a particular grass variety, such as quack grass or bent grass,

that may be in with the desirable grasses. The problem is to control the trespassing vegetation without harming the main turf varieties.

Chemicals that will control crabgrass, the common and malignant lawn spoiler, have been available for many years. In general research has been concentrated on methods of controlling this problem grass using pre-emergence, rather than post-emergence, herbicides such as DCPA or bensulide (Betasan), either in the spring or in the fall. Dr. Switzer and Mr. Rudy Brown, of the Ridgetown College of Agricultural Technology, have had considerable success with these fall applications.

Snow mold, a fungus that attacks grass during warm spells in winter or in the early spring is another problem being tackled through research. Dr. Steven Fushley, of the Botany Department, is attempting to control this blight with fungicides. The blight is most often found on bent grass found in golf courses. In order to achieve success, Dr. Fushley is obliged to plant fungi in his plots to develop a good experimental area.

Mr. William Brown, a graduate student working with Dr. Switzer, is engaged in tests to regulate the growth of grass in lawns, with the long-range aim of producing a good-looking lawn that seldom, if ever, needs cutting. Many growth regulators have been tried in the past with some success, but these have led to severe grass discoloration. The lawns have turned red or yellow. Mr. Brown is now using chemicals such as Maintain, and maleic hydrazide in his research.

Many turf grasses used at present have only limited qualities as far as vigor, disease resistance, and appearance are concerned. A program to test new grasses introduced by plant breeders is being conducted by Dr. J. Eggens, Department of Horticultural Science, at the Horticultural Research Station at Preston. Dr. Eggens is looking for a bluegrass that is more disease-resistant and aggressive than the Merion bluegrass common today. A better creeping red fescue grass is also being sought. This program has already participated in the registration of the creeping red fescue 'Reptans' and 'Highlight', now for sale in Canada.

The rhizome (or root) system must be well-knit to produce a first grade bluegrass sod. Environmental and nutritional factors influence the rate and quality of rhizome production, and Dr. Eggens is engaged in testing different fertilizer ratios that will give the best rhizome production under the changing environmental conditions from early spring to late fall.

ABOUT THE TOWN

With Jeanne Sears

There was another lucky lady at Bingo last Thursday with Mary Maidens taking home the Snowball of \$61.00 — Congratulations.

Mr. and Mrs. Joe Dollo are happy to learn of the arrival of another grandson, Anthony Mark son of Angela and Peter Mackoskey of Charlottetown P.E.I.

Another motor accident has claimed the life of a wife and mother; Jean Gartshore out for a drive with Dave and Gale Teatro and Tracey were hit and she was killed. The rest of the family are patients in Ross Memorial Hospital. Sympathy of the community goes to the family.

Ruth and Hugh Alton and Laurie are away on a motor trip through the States and Mexico.

We note that March 6 has been set aside as World Day of Prayer this year; all ladies are invited to attend at St. Pauls Anglican Church.

Hint of the week — When you oil your sewing machine, sew through a blotter and this will absorb any oil so that it will not get on your goods.

Patients in the local Hospital on Monday included Mrs. Alma-Peterson, Mrs. Ella Davis, Ralph Newbatt, Mr. A. Delbert Miller, Mrs. Linda Teatro and baby girl, Mrs. Jeannette Nesbitt, Mrs. Barbara Perrin and baby boy, Mrs. Elsie Harrison is a patient at Toronto General.

Other persons planning a trip to Florida are Joan and Jim Hatkiski and Chris and Peter Dollo.

The Historian of W. I. Tweedsmuir village History is interested in getting any family histories or incidents for their book. This is really important as much material is lost and, we would be pleased to receive your family history. Send to me or Mrs. J. Fairfield.

Opal and Don Crowe have just returned from a two week motor trip to Nashville, Houston Texas, New Orleans, and Florida and included a visit with Buzz and Bill of The Cupboard at Sarasota.

The L.O.B.A. had a fine crowd at their Card Party Monday with winners being Anne Thurston high and lone hand and Len Lonsberry. Following the euchre games all enjoyed the delicious lunch and cup of tea served by the ladies.

Have had a variety of weather the past week, trying to snow at the moment. Cheerio until next week.

MINDEN, ONTARIO

THE NATION'S BUSINESS

by William Scott M.P.

In accordance with the new rules under which the House of Commons has been operating for some time now, days are regularly set aside as "Opposition Days"; days during which the House debates a motion of want of confidence in the Government on a topic selected by the Opposition.

The most recent such day dealt with lack of confidence in the Government's new policy of attempting to overcome region disparity within Canada by the provision of incentives to new industries to locate in a designated area, or for established industry to expand.

The principal critics of the Minister of Regional Economic Expansion and his department were Progressive Conservative members from the Atlantic and Prairie Provinces. The burden of their criticism was that very little help had been given these regions, both of which were in desperate need of 'evening up.' The evidence would appear to bear out this criticism. Of the four western Provinces, only Manitoba has received any incentive money while, in the Atlantic region, Nova Scotia and Prince Edward Island have received none and Newfoundland only a very little.

According to information taken from replies to questions directed to Mr. Marchand, the minister involved, about \$15½ million had been put up by the Department up to December 31, 1969, to attract new industry to areas of need. Of this total amount, Quebec received \$10,677,120. Next came New Brunswick with 3,163,000; then Manitoba at \$1,263,250. Newfoundland received incentive money amounting to only \$151,200, while Ontario trailed with \$95,000. British Columbia, Alberta, Saskatchewan Nova Scotia and Prince Edward Island received nothing at all.

It is something more than coincidence that the greatest share of incentive money was paid to those provinces having the largest French Canadian population — Quebec, New Brunswick and Manitoba.

There are many reasons to doubt the effectiveness of a program designed to attract industry that must depend on some form of subsidy.

The new program permits the federal government, through the Department of Regional Economic Expansion, to grant financial assistance to new industries, establishing in designated areas, of up to half the capital cost of the plant and up to \$30,000 for jobs created. This sounds like a tremendous incentive. But, for such large and stable industries as some of the huge international cooperations, even this generous assistance would be only a minor factor in a decision to locate in a new area. Many other things would weigh more heavily — transportation facilities and accessibility to markets, potential sales balanced against increased costs of production and many similar factors.

Such a program is more likely to appeal to the small, struggling industry whose chance of survival is only marginal.

Under any government in almost any country, the permitting of such a rich pork barrel, dependent upon purely political decision for its allocation, is creating a mighty strong temptation. Such political considerations were mentioned in the debate,

particularly in connection with the drawing up of those areas eligible for incentive grants. These areas include just about all of the Atlantic provinces and Quebec, but exclude Ontario, except for that area to the north of the Ottawa River, and peter out somewhat in the southern Prairies. The only portion of Alberta, for instance, included just happens to coincide closely with the riding of the federal Minister of Agriculture. British Columbia, the Yukon and the Northwest Territories are entirely excluded.

If the basic concept of financial incentives to attract new industry is sound, it would appear that it should be much more carefully thought out before becoming operative and, once operative, should be very carefully scrutinized and policed.

**RED CROSS SERVES YOU
EVERY STEP OF THE WAY**

TODAY'S CHILD

BY HELEN ALLEN

Toronto Telegram Syndicate

Derek is a good-looking boy, as you see, 19 months old. Scottish, Irish and German in origin, he is nicely built, with big blue eyes, very long dark lashes, fair skin and rosy cheeks. He is in excellent health.

Derek is an affectionate lad who loves to be cuddled. He's not boisterous or rambunctious but he likes to be with other children in the midst of their activity and he knows very well how to get into mischief, which means into cupboards and drawers.

Since he is a good-natured, easy-going boy he would be an ideal son for inexperienced parents to start their family.

To inquire about adopting Derek please write to Today's Child, Department of Social and Family Services, Parliament Buildings, Toronto 182. For general adoption information ask your Children's Aid Society.

DOLLARS AND GOOD SENSE

by William J. Martin

This column is a regular feature prepared by the Family Financial Counseling Service of the Avco Delta Corp., P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered in print or by mail. Names will not be used in print. However, all questions should be accompanied by a complete name and address.

\$\$\$

Dear Mr. Martin:

As you well know sex education in our schools is one of the big controversial topics today. Whether or not kids should be taught the "facts of life" at an early age so they won't go out into the world full of complexes and fears is of course, quite de-

by LORNA ROGERS

Last week we told you about a new series about radio heard each week on Sundays. Instead of calling it the One Ninety-Five Special, it has been decided to round out the figure and call it Your Two Bucks Worth. To explain: the CBC, as a crown corporation, is financed by monies voted it by Parliament, funds which actually come from the Canadian taxpayer. Out of this total sum, a certain portion is allotted to TV, a lesser amount to radio. Approximately two dollars per person (every Canadian man, woman and child) is that portion of the yearly grant allotted to radio, AM and FM, English and French networks. Audience reaction will be used on the program — interviews with listeners who've expressed an opinion on a program or policy, or taped phone conversations with individuals. So tune in, and get Your Two Bucks Worth!

The Art of Glenn Gould, the radio series featuring the wit, music and conversation of the World famous pianist, has been sold to several countries, New Zealand being the most recent. If you missed it the first time around, you'll have the opportunity to hear it this April when it will be repeated on the AM network.

The Voice of the Pioneer series has been running for about 1 1/2 years on Sundays and shows no signs of running out of material. A new mini-series began this week, February 22, the story of Italian immigrant Pasquale Capozzi's road to success in the Okanagan Valley of B.C.

batale. While I'm not so sure I go along with this way of thinking, I'm certainly all for preparing our children to face adulthood. But while the bug issue and the one that gets all the publicity, is over sex education, there is nothing in the current curriculum at the high schools our daughter attends that teach her how to handle money or buy on credit when she graduates and becomes an adult. And a lot of youngsters get married right away or within a year or two after graduating from high school. Why they're not more ready to face the world than I was twenty years ago. It seems to me that if we're going to educate our youngsters so they won't suffer all kinds of traumas and social and sexual hang-ups, we ought to at least help them get a start on life by arming them with knowledge about money and credit and how to use them. How do you go about getting this kind of consumer education developed into the school curriculum?

Mrs. E. C.

Get on your soapbox just as you've done in your letter! Talk to your friends! Get organized! In other words push for it through your local PTA or school board. The important thing is to let the people know about your views.

Actually, some schools systems are already implementing this training in their school curriculum, either by making it part of another course, such as home economics, social studies, mathematics, etc., or establishing it as a single course of study.

Consumer education in our nation's schools — and that should cover such subjects as the wise use of credit, budgeting, savings and investments, taxes and general family money management — is an absolute must if our young people are to make it. And we must depend on the schools to teach them these "economic facts of life."

Fortunately, there are some organizations that are pressing hard for consumer credit education in our schools and are doing something about it by offering textbooks and courses of study in family money management. But of course they cannot do it alone. They need support from parents like you.

I've seen the results of this lack of consumer education in our schools — cases in which young families have been forced to go the bankruptcy route because they simply could not meet their financial obligations. They did not know how to do it.

So I wholeheartedly applaud your views and wish you luck in getting consumer education going in your school.
